

SafeRise Protocol

INVESTOR CONVERSATION

Andre Robley · Founder
Kenor International B.V.
thesaferiseprotocol.com

The regulation and attention layer that makes everything else land.

When someone is in a triggered state, everything else you have given them is unreachable. **SafeRise is what gets it back.** Self-guided protocols matched to the state a person is actually in — sold to individuals, and delivered into organisations that already fund support their people cannot reach in the moment.

NOT ANOTHER THING TO REPLACE WHAT IS ALREADY THERE

Not **therapy**

Not an **EAP**

Not a **meditation app**

Not **coaching**

Not an **outcome promise**

SafeRise is the capability an assistance programme, a coaching panel and an L&D budget all quietly assume people already have. **It sells alongside rather than against** — and €15 a seat is evidence, not an objection.

TWO MARKETS, ONE LIBRARY

B2C Personal life

Protocols for the states that decide how a day goes — anxiety, anger, overwhelm, shame, shutdown. Track 01 is free permanently: the acquisition engine, not a promotion. Everything above it sits behind a single all-access tier.

Personal Transformation · Relationship Healing · Professional Performance

B2B Organisational access

People and HR teams fund the shared library for every employee, with one protocol built for their role and one for their industry. No referral, no waiting list, and no limit on how many need it at once.

Fourteen roles · sixteen industries · green industry, blue role

ONE PHILOSOPHY. ONE METHOD.

Recognise

Bring the experience into view, without diagnosis

Regulate

Enough steadiness to regain command of attention

Release

Loosen struggle and the demand to resolve it now

Rise

Return to deliberate participation and caring action

Attention → Awareness → Authorship. The same four steps run in every protocol, on every track. **That consistency is the product.** The same capability applies wherever a state is making the decision — it is built for three areas of life so far, and we are building it for the rest.

A FOUNDATION ALREADY BUILT

LIVE NOW

30

written protocols, three tracks, entering beta
30 September 2026

BEHIND THEM

308

guided practices, expert insights, private
journals and progress

ALREADY INVESTED

\$202,860

founder capital. The product is built; this buys reach

\$15,000 · THE NEXT SIX MONTHS

A development and launch bridge: **ten B2C tracks in months one to three**, followed by the **eight-track B2B core** and selected specialist proofs of concept in months three to six. Let us discuss the product and participation in this next stage.

Founded by Andre Robley — enterprise SaaS commercial experience with somatic coaching, meditation and Jungian practitioner training.
